- 
- The background features several large, semi-transparent golden spheres composed of a fine grid of lines. They overlap each other, creating a sense of depth and motion. The spheres are positioned in the upper half of the frame.

The background features a complex, abstract wireframe sculpture composed of numerous thin, light-purple lines forming spheres and organic shapes, centered against a white background.

**3. da domesticação visual de monstruosos conjuntos de dados, vagamente inteligíveis**

A close-up view of a globe showing ocean currents and temperatures. The image focuses on the Southern Ocean and parts of the Atlantic and Indian Oceans. The water is depicted in various colors (blue, green, yellow, orange) to represent temperature and current direction. A prominent feature is a large, swirling pattern of warm water (orange/yellow) moving from the lower left towards the upper right.
